
Munim Dibosh

Product Designer

Dhaka, Bangladesh

abdulmunim.buet@gmail.com | <http://dibosh.me/>

+880 - 1946923667

I have been involved with designing usable interfaces for more than 2 years and been into software development nearly for 5 years now. Having clear understanding of product and user experience design, enabled me to become one of the key design decision makers in every company I have worked for. Looking forward to working with a team of passionate people who share the same dream and work relentlessly to solve a problem that makes millions of lives easier.

SKILLS

Interface Design - Logo/Brand/Identity Design - Interaction Design - UX Design - Frontend Development - Software Engineering - Scrum Master/Product Management

EXPERIENCE

NewsCred Inc, Dhaka Office - Full Stack Engineer (Full Time)

AUGUST 2014 - PRESENT

NewsCred is one of the leading content marketing solution providers. They provide Content Marketing software as a service.

- Initially joined as Product Designer for one of the core teams and provided UX solutions along with front end development in AngularJS for more than 1 year
- Was part of developing an interactive interface for original content clients to solicit ideas from their freelancers on top of MEAN stack
- Improved and developed a whole new story writing experience inside Content Marketing Cloud application; mostly vanilla JS
- Designed and developed a reporting dashboard used by sales team on top of AngularJS

Lantas Tech, Dhaka - UX Engineer & Product Owner (Part Time Consultant)

APRIL 2015 - PRESENT

Lantas Tech is a small startup with a revolutionary idea of developing a micro CRM for enterprises.

- Researched and developed the whole product roadmap from scratch
- Designed the whole experience of the micro CRM mobile application and owned the design team of 2 person to do branding and all

-
- Introduced Scrum and as a Product Owner directed the product outcome and milestones

ManGoesMobile, Dhaka - Software Engineer (20 hours/week)

NOVEMBER 2011 - JULY 2014

ManGoesMobile was a small startup founded by an ex-Googler focused to work on third world problems and building tools for them.

- Developed a telemedicine system for doctors all over the world in both iOS and Android
- Designed and developed an interactive form creation and submission process for a group messaging application, in Android, using OpenDataKit
